

The BGM Group

The Workplace Integration Specialist

Introduction

Companies face constant challenges and are increasingly seeking outsourced expertise to care for the workplace whilst they and their employees concentrate on running their own business.

The BGM Group offers integrated workplace solutions that deliver efficient and effective planning and implementation of changes in workplace, facilities, real estate and IT infrastructure assets.

Independence

We value our independence.

Our business has been built solely upon our clients' successes.

We are 100% focused on:

- Delivering integrated workplace services
- Providing client value
- Creating our future

When we select partners to assist in client delivery, we will always act for the client first and foremost.

Our company, our services and our approach

Our work-streams:

- Move Management
- Space Bureau
- Infrastructure Management

Our people, our clients and our contact details.

Our Company

The BGM Group has been created from the merger of Border Graphics Limited and MDC Consultancy.

The two companies developed a strong relationship whilst delivering services in partnership for a range of major clients. The core BGM Group concept of workplace integration was then advanced with the incorporation of The BGM Group.

Now, we can deliver an office move or a major churn contract, an Infrastructure Management (IM) solution, a complete space plan or a workplace portfolio strategy. Our consultants tailor integrated solutions to specifically match your requirements.

Our Services

The BGM Group supports your people in their work. We offer an increasing range of workplace services, from a one-off project to an integrated solution covering FM and IT strategy and implementation.

Our people are aligned to deliver workplace solutions via three core work-streams:

- Move Management
- Space Bureau
- Infrastructure Management

We can deliver strategic consultancy with insight, specific services, implementations and ongoing support, working as an integral part of your team across the UK or internationally.

Our Approach

The BGM Group has a 5 step approach to delivering workplace efficiency.

1. The brief: where client needs become insightful strategy
2. The BGM Transition and Mobilisation Model (TAMM): defines the service package
3. Assignment: Expert people and resources dedicated to your team
4. Implementation: with management, control, support and governance
5. Ongoing evaluation: delivering continuous improvement and enhanced performance

Our Work-streams

Move Management

Our professional Move specialists deliver successful relocations, changes and churn. They deploy the strategic, technical and practical skills that delivered over 50,000 successful people moves last year.

We manage the logistics, planning and implementation to provide seamless relocation with zero downtime for any business and its people.

We handle every detail of consultancy, planning, programming, procurement, management and communication with everyone involved in the project.

Our systematic approach ensures that equipment, files, records, IT and telecom services are all migrated efficiently and effectively.

Space Bureau

Our dedicated people provide effective and creative solutions for clients needing workplace improvements and new ways of working.

They are expert in the planning, development and design of workplace assets, from property portfolios, buildings and offices to furniture, lighting, fixtures and fittings.

They provide services across four key disciplines of:

- Strategic Consultancy
- Building Appraisal
- Planning & Interior Design
- CAFM

And they support delivery of integrated solutions for all of our clients.

Infrastructure Management

Our IM team handle all aspects of IT infrastructure and connectivity, from cable design and management through IM to Intelligent (IIM).

They have unrivalled knowledge and insight into leading software products and can offer independent advice on the best solutions to meet your needs.

IM has the potential to support wider business objectives through real-time asset management, network security, workspace utilisation, building management and environmental monitoring.

We can offer you insight, diligence, control and efficiency of your activities and an integrated approach to your workplace assets.

The Workplace Integration Specialist

Our People...

.....are at the heart of The BGM Group, our processes, our assets, our values and our mission.

We strive to recruit, train, develop, nurture and reward the best people in order to provide the best results for our clients.

They are proactive, energetic, professional people who represent and develop our clients business and our shared values.

Together we will raise the profile and professional standards for our industry and the people within it.
